1471 Forest Knoll Drive, Los Angeles, US

Set in the hills above the Sunset Strip, 1471 Forest Knoll Drive is an 11,184 sq ft modern farmhouse that stands out for all the right reasons. Drawing design cues from Louis Kahn's Kimbell Art Museum in Texas, the residence takes the form of three gabled living spaces – each complete with nine-metre-high ceilings as well as wood, concrete and stone fittings. Floor-to-ceiling glass walls make up the home's majestic facade, granting unobstructed views of an expansive infinity pool. In addition to six bedrooms and nine bathrooms, the two-level property also boasts its own gym and home theatre.

Price: US\$32 million
